

## **Press Release**

### **Patek Philippe, Geneva Baselworld 2016**

#### **Patek Philippe at Baselworld 2016 The manufacture enriches its regular collection with seductive continuity**

As a first big surprise at Baselworld 2016, Patek Philippe is presenting a new model in the regular collection that pairs two highly popular complications in one watch. The second première is a new model that celebrates the 20th anniversary of a genuine bestseller. The third debut graces feminine wrists, the fourth is a grand classic that was subtly reworked, and number five once again demonstrates that no complication is too challenging for Patek Philippe.

Aficionados, collectors, and connoisseurs of mechanical timepieces will be awed when they see the new Patek Philippe World Time Chronograph Ref. 5930. It combines the Genevan manufacture's patented World Time mechanism with a proprietary self-winding chronograph movement that comes in a round white-gold case and a dial with a blue, manually guilloché center.

The second debut is the Annual Calendar Ref. 5396 that very tastefully recalls the 20th anniversary of the patented Annual Calendar (its successful career began in Basel in 1996 with the Ref. 5035 that a few months later was voted Watch of the Year). Since then, the Annual Calendar has been crafted in 21 versions including ladies' diamond-set models with mother-of-pearl dials, not to mention the numerous variations in platinum, yellow gold, white gold, and rose gold with eclectic dial designs. The new Ref. 5396 is model No. 22.

Speaking of ladies: Patek Philippe is presenting the Calatrava "Timeless White" Ref. 7122 for the woman's wrist. With the timeless beauty of the bright white dial, innovative gemsetting artistry featuring white flawless diamonds, and a refined case design, it is compellingly seductive.

The new World Time watch Ref. 5230 supersedes all previous models of its lineage because politically motivated modifications of the World Time order called for a new time-zone scale. Patek Philippe took this as an opportunity to subtly rework the dial and case of the new Ref. 5230.

And not least, Patek Philippe has announced a changing of the guard at the top of its ranking for the most complicated regularly produced wristwatches. The new Number 1 is the Grandmaster Chime Ref. 6300 with a novel and distinctive exterior. Featuring 20 complications, among them 5 strikework functions, it redefines the benchmark. Its hand-guilloché white-gold case clearly distinguishes it from the totally hand-engraved Grandmaster Chime Ref. 5175 that was crafted in a limited 7-watch commemorative edition.

## Technical data

### Ref. 5930 World Time Chronograph

<b>Movement:</b>	Caliber CH 28-520 HU Self-winding mechanical movement, column-wheel chronograph, vertical clutch, local time, display of 24 time zones, day/night indication
<b>Diameter:</b>	Overall: 33.00 mm Basic caliber: 30.00 mm Time-zone module: 33.00 mm
<b>Height:</b>	Overall: 7.91 mm Basic caliber: 4.9 mm Time-zone module: 3.01 mm
<b>Number of parts:</b>	343
<b>Number of jewels:</b>	38
<b>Power reserve:</b>	Min. 50, max. 55 hours
<b>Centrifugal mass:</b>	Central rotor in 21K gold, unidirectional winding
<b>Balance:</b>	Gyromax®
<b>Frequency:</b>	28,800 semi-oscillations per hour (4 Hz)
<b>Balance spring:</b>	Spiromax®
<b>Balance spring stud:</b>	Adjustable
<b>Functions:</b>	Two-position crown: – Pulled out: To set the time – Pushed in: To wind the watch
<b>Displays:</b>	With hands: • Local time in hours and minutes • Chronograph hand (trotteuse) • 30-minute chronograph counter  With disks: • City disk with 24 place names • 24-hour ring with day/night indication in colors and sun/moon symbols
<b>Pushers:</b>	Chronograph start and stop at 2 o'clock Chronograph reset and flyback at 4 o'clock Time zone adjustment at 10 o'clock (synchronized adjustment of displays in one-hour steps for the hour hand and 1/24th counterclockwise increments for the city disk and the 24-hour ring)
<b>Hallmark:</b>	Patek Philippe Seal

## Features

Case:	18K white gold Sapphire-crystal case back Water resistant to 30 meters (3 bar)
Case dimensions:	Diameter: 39.50 mm Length (across lugs): 48.23 mm Width (3 to 9 o'clock incl. crown): 42.85 mm Thickness (crystal to display back): 12.86 mm Width between lugs: 21 mm

#### Patek Philippe Ladies' Calatrava Ref. 7122

Movement **Caliber 215 PS, manually wound**

Diameter: 21.9 mm  
Height: 2.55 mm  
Number of parts: 130  
Number of jewels: 18  
Power reserve: Min. 44 hours  
Balance: Gyromax®  
Frequency: 28,800 semi-oscillations per hour (4 Hz)  
Balance spring: Spiromax®  
Balance spring stud: Adjustable

Functions: 2-position crown  
• Pushed in: To wind the watch  
• Pulled out: To set the time

Displays: • Hour hand  
• Minute hand  
• Seconds hand

Hallmark: Patek Philippe Seal

### Features

Case: 18K rhodiumed white gold (Ref. 7122/200G)  
or  
18K rose gold 4N (Ref. 7122/200R)  
Sapphire-crystal case back  
Water resistant to 30 m (3 bar)

Case dimensions:	Diameter: 33 mm Diameter (3 to 9 o'clock incl. crown): 34.88 mm Length across lugs: 39.6 mm Thickness (crystal to display back): 7.19 mm
Dial:	White lacquered and polished Applied hour markers with hobnail pattern in 18K gold to match the case Leaf-shaped hour and minute hands in 18K gold to match the case Subsidiary seconds at 6 o'clock with leaf-shaped hands in 18K gold to match the case
Strap:	Alligator strap with square scales, hand-stitched, nacre white, 14-mm prong buckle in 18K gold to match the case

### Technical data

#### Ref. 5230 World Time watch

<b>Movement:</b>	Caliber 240 HU Self-winding mechanical movement, display of 24 time zones, day/night indication
Diameter:	27.50 mm
Height:	3.88 mm
Number of parts:	239
Number of jewels:	33
Power reserve:	Min. 48 hours
Centrifugal mass:	22K gold minirotor, unidirectionally winding
Balance:	Gyromax®
Frequency:	21,600 semi-oscillations per hour (3 Hz)
Balance spring:	Spiromax®
Balance spring stud:	Adjustable
Functions:	Two-position crown: – Pulled out: To set the time – Pushed in: To wind the watch
Local time selector:	Pusher at 10 o'clock Synchronized adjustment of displays in one-hour steps for the hour hand and 1/24th counterclockwise increments for the city disk and the 24-hour ring
